The Summagrid VII large-format digitizer series has been designed to provide optimum value at the highest accuracy for CAD/CAM, apparel and construction estimating professionals. Summagrid VII digitizers blend advanced technology with affordability to give users the highest precision at the most competitive price.

Summagrid VII offers high-quality performance

in a sleek, ergonomic design.

Summagrid VII's many features include Windows software drivers and user-friendly setup and installation. In addition to

an RS-232 serial port, the SummaGrid VII includes native USB connectivity that allows power to be supplied via the USB port for simplified installation.

The Summagrid VII series includes a full range of sizes including 24"x36" (A1), 36"x48" (A0) and 44"x60" (A0+). All models come with integrated USB and RS-232 serial connections, a choice of corded or cordless transducers, plus drivers, utilities, interface cables, mounting brackets and a pen tray.
